BASSANO, ALBERTA, THURSDAY, June 30, 1927

NUMBER 10, No. 48

Bassano's Diamond Jubilee Celebration and Stampede - July 1st and 2nd

RE-BONDING PLAN IS NOW IN OPERATION

Secretary Reports as Council Meeting New Financing Plan is Now in Effect

At the monthly council meeting held in the town hall last Monday evening, secretary treasurer J. B. Donaldson reported that new debentures had been issued for the old bonds, and the new re-bonding plan was now in operation.

A tremendous amount of work was involved in repaying the old debentures and issuing new ones, and it has taken many weeks to complete the task. The new financing plan is now in effect, and the taxpayers are getting the benefit of a low rate of interest, and other features of the scheme.

Engineer's Report
Frank Mead, town engineer, turned in his report for the month of May. Mr. Mead reported that during the month one leak had been repaired in the water main, the catch basins had been cleaned out and put in good shape, and considerable work done on the streets. The results of the street grading had been somewhat nullified because of the wet weather and the cutting up of the grades again. The town engineer was instructed to repair some of the main crossings with chaders.

Auditor Reports
Auditor H. W. Ford reported he had audited the town books up till March 31, and found everything in good shape.

Accounts

The following accounts were read and passed for payment:	
H. D. Bacon	\$4.50
Pay Roll for May	\$81.30
Road Holders Committee	\$148.00
Marquardt Bros.	\$61.14
Bassano School	\$100.00
C. P. R.	\$2.00
Canadian Allis Chambers	\$42.90
Telephones	\$5.35
P. E. D.N.R.	\$47.28
Marquardt Bros.	\$74.38
Bassano School	\$60.00
Bank of Commerce	\$4.40
Royal Bank	\$4.40
Sundry Bondholders	\$7,684.10
Robt. McLean	\$7.00
Bassano Hall	\$1.50
P. E. Osborn	\$7.00
Roy Smith	\$5.00
Currie & Milroy	\$2.58
Mother's Allowance	\$2.00
A. R. Maurer	\$2.75
W. S. Playfair	\$1.50
Plamagau Bros.	\$1.50
R. A. Travis	\$5.35

TENNIS
Players should make an effort to pay up their membership fees as the club will have money to improve the courts.

BIG PARADE FOR FIRST OF JULY

Plants, Automobiles, Boy Scouts, Indians and Cowboys Will Present Colorful Scene

One of the most attractive features of the day's program in Bassano on Friday July 1st will be the parade. Preparations are being made for the biggest and best parade ever seen in Bassano, and from all indications there is not the slightest bit of exaggeration in this statement.

Big Battalion Band
The members of the 1st Battalion Band, of Medicine Hat, have been procured for the day. The band will occupy a prominent position in the parade, and play patriotic airs and marches.

A float will be displayed by the T. A. A. float by the Women's Institute, a Red Cross float, Imperial Oil float, Burns Bros. school float, Altaview school float, and probably other floats will take part in the parade.

Boy Scouts and Cubs, Indians and squaws dressed in their gayest holiday attire, cowboys and cowgirls in their frontier regalia, and decorated automobiles, will add color, life, and interest to the pageant.

Countess News

COUNTRESS, June 9—School superintendent Joyce was in the district last week.

Mrs. May Burrows spent Thursday visiting Mrs. A. M. Anderson.

Mrs. Matlick arrived home on Wednesday after several months' visit in California.

Ralph Burrows played baseball at Arrowwood on Friday.

Mrs. E. R. Held entertained the school children of the neighborhood at her home on Saturday.

Mrs. E. R. Held entertained the school children of the neighborhood at her home on Saturday.

HOW ABOUT OUR OLD SWIMMING POOL?

When will the swimming pool be completed?

What is the committee doing? Why don't they do this or that or the other, etc., etc?

These are the questions, and many others, that are shot at the committee continuously. The pool will be completed as soon as enough money is in sight to pay for it. Every obligation has been met to date, but it has been mainly due to the help rendered from outsiders. Unless the citizens of the town wake up and do their bit it will be a matter that Bassano possesses a swimming pool in spite of its citizens, rather than because of their help.

Rosemary News

ROSEMARY, June 9—The dance held June 3rd was fairly well attended, and it had a good time.

A number of Rosemary people attended the baseball game in Bassano Sunday last.

Mr. Hayes, of Bassano, is in Rosemary fixing his car at Pegg's garage.

Mr. Parks, Mr. Young, and Mr. Copeland, were at the lodge meeting in Bassano Tuesday evening.

Mrs. Nelson spent a few days in Calgary last week.

Louise Chin, of Brooks, was a Rosemary visitor Monday.

Billy Boyce shipped a mixed car of stock Tuesday.

A few from Rosemary attended the sports day in Brooks last Saturday.

Stas Mitchell is visiting in Rosemary for a few days.

Ed Moler was in Brooks Monday.

D. H. Bark, of Brooks, was in Rosemary Tuesday.

Roy Thacker, who was operating on appendicitis in the Bassano hospital, is home and doing fine.

Mr. and Mrs. Jones were Sunday visitors at the home of Mr. and Mrs. Wilson.

The Jubilee committee especially invite the people of Rosemary to take part in the celebration in Bassano on Friday, July 1st.

ANNOUNCEMENT
Mr. and Mrs. Charles Bourbonnais announce the engagement of their eldest daughter, Charlotte Elizabeth, to Mr. Walter Bloor, of Los Angeles, California, formerly of Calgary, the marriage to take place in July 1st, Los Angeles.

The public works department is putting chaders on the streets.

THE KID BROTHER
The story tells the tale of the youngest son of a family of mountaineers who control a tiny mountain town. A medicine show arrives, and Harold, wearing the sheriff's badge, saves them a horror. Father, leader of this, and there's—well, Harold has a terrible time righting things when the show's tent catches fire, and a large sum of money is stolen. But it all turns out for the best as it is a thrilling fight aboard an abandoned ship. Harold proves himself a hero and worthy of being called something other than "Kid Brother" Friday and Saturday this week "The Iron Horse" will be shown.

GOLF NEWS
The grass on the golf course is getting long, and will have to be cut soon as balls are easily lost.

WHAT POOL MEETING HERE SATURDAY JULY 15

Officers and members of the Alberta Wheel Pool will hold a meeting in the Oldfellows' Hall, Bassano, on Saturday, June 15, at 2:30 p.m.

The meeting is for the purpose of planning arrangements for the launching of the drive to sign up wheel pool members for another five year period.

Farmers and everyone interested in co-operative marketing are invited to attend.

We need a little help from our friends. The arrangers have done well.

We still have a few books of tickets on hand. Let's get

EXCELLENT CROP PROSPECTS IN HUSSAR DISTRICT

Newspaper from Hussar and surrounding district.

HUSSAR, June 8—Prospects are splendid for a bumper crop this year. The ground is very moist, and the warm days make the grain feed up fast. The grass is the best for several years.

Men are at work on Frank Farley's house, which is being erected on the lot next to Ralph Armstrong's.

Miss Nancy Elliott spent the week with her sister, Jessie, in Bassano.

Mr. and Mrs. A. A. Cliffrad attended the sports day celebration at Arrowwood Friday.

Mr. Margaret Rovere was successful in passing the higher division music examinations which she took recently in Calgary.

The result of the play was as follows:

Bassano: Gleichen 8, Melville 1, St. Paul 0, Boyce 1, Purcell 8, Gordon Foster 1, Yates 9, Mearns 1, McDonald 9, Young 9, Marshall 9, Culbert 1, Smith 1, Guy Foster 1, Holt 1.

Harold Lloyd Gives Laughs and Thrills

Harold's Newest, "The Kid Brother" Combines Comedy and Pathos

At a business meeting of the Ladies Aid held in the hall Thursday afternoon the following officers were elected:

Pres. - Mrs. A. Anderson
Vice Pres. - Mrs. W. D. Moffat
Sec. Treas. - Mrs. H. D. Brown
Flower Committee - Mrs. A. A. Cliffrad and Mrs. Theodore Larson

Pantry Committee - Mrs. Ralph Armstrong and Mrs. E. Holland.

The Jubilee committee especially invite the people of Hussar to take part in the celebration in Bassano on Friday, July 1st.

Imperial Oil Agents Confer in Bassano

E. H. Treggie and H. B. Stevens, of Calgary Division, Oil Interest, are in Bassano.

About fifteen agents of the Imperial Oil, Ltd. from Brooks, Calgary, Hussar, Gleichen, Duchesne, Standard and other points in the Bassano district, gathered at the agents' conference held in the Hunter Hotel, Bassano, on Tuesday and Wednesday this week.

The gathering was addressed by E. H. Treggie, general manager of the Calgary Division of Imperial Oil, B. B. Stevens, assistant manager of the Calgary Division, and I. Dawson, chief of the sales department.

The meetings proved very interesting to the oil agents; who gleaned a store of information on the qualities of Imperial Marvelous, Ethyl gasoline, and other products of Imperial Oil, and how these products are manufactured from the crude oil through the various stages of refinery treatment to the finished product.

Joe Johnston has a crab apple tree that is now in bloom.

INTERESTING ITEMS FROM GEM COLONY

Gem Will Hold Sports Day on July 27th—Turkey Raising Not so Good in West Weather

JULY 27th—Big day in Gem. Don't forget the date.

Mrs. Wyatt, who recently arrived in the Colony from Surrey, England, will be the guest of her daughter, Mrs. E. Small, for a few weeks.

Mrs. and Mrs. O'Neill were supper guests at the home of Mr. and Mrs. E. Small on Sunday last.

Mrs. M. Atkins left Bassano at the coast with relatives. Barbara will attend school in Victoria.

Leona Johnson spent a pleasant holiday with Mrs. Brown and girls who are now living on the old Marquette farm.

Mr. and Mrs. T. Maguire were Sunday dinner guests of Mr. and Mrs. E. Small, and enjoyed a lovely Old Country chat with Mrs. Wyatt.

Mrs. M. O'Callaghan, formerly of Stalybridge, England, and now of Boston, Mass., will spend a summer holiday with Mrs. Maguire in Gem.

Miss Smith and Miss Waldron, of the Gem school, enjoyed a game of tennis at the home of Mrs. R. Robinson on Friday afternoon.

Many a member of the community attended the dance in Bassano on Friday night, being Misses M. Waldron, I. Robinson, H. Robinson, and Miss Margaret Rovere.

On Sunday last quite a party of Gentiles motored to the home of Mr. and Mrs. Roy Robinson in the Hussar district.

The were entertained to dinner. All report a very enjoyable time.

R. Selfridge and party were among the guests who enjoyed Mrs. R. Robinson's hospitality on Sunday last.

Several of Mrs. E. Jones' numerous friends in the Colony are planning a visit to the Wintario Hills during the summer.

A number of surveyors spent a whole day recently surveying for the Gem railway. It looks though we are going to have a real railway in Gem after all this delay.

Mrs. Williams is looking forward to a visit from his sister who resides in St. Paul, Minnesota.

Mrs. Villet, who recently arrived from P. E. to attend the funeral of her grandson, Philip Royer, left for her home during the week-end.

The C.P.R. camp is in charge of the popular foreman, P. O'Connor. It has been in the Colony for a few days, and will move on to the old camping place. We all like to see Pat around.

The Gem farmers are asked to make a big effort to attend the wheat pool fair to be held in the Gem school, on Saturday, July 1st, at 1:30 sharp. Many prominent wheat pool officials have promised to attend. All farmers are heartily invited to come.

The continued rainy spring has been hard on the young turkey's and many losses have been reported. Mrs. Schreiner is quite proud of her flock of almost sixty turkeys, returns from one incubator of eighty eggs.

On Saturday evening, June 11th, an ice cream social will be held in the Gem school, and every young person in the Colony is invited to be present.

An effort will be made to organize a young people's society. Everybody welcome.

Miss T. Bates, of Calgary, is spending a holiday in Gem, the guest of Mrs. T. Maguire.

Stanley Selfridge and Eugene Jones were Saturday morning visitors to Bassano.

Mr. local Superintendent, M. A. Atkins, and son Dudley, returned to the Colony on Sunday last. He has been enjoying a month's holiday with relatives in Victoria, B. C.

Misses Smith and Selfridge, with Jack, were welcome Saturday afternoon callers on Mrs. Maguire.

Mr. local Minister and children, are enjoying a week's holiday with Mrs. Roy Robinson, of Hussar.

A. P. Miller, B. Pollock and son Willie, enjoyed the ball game in

MORE RAIN
A north wind brought another rain Thursday morning, and there has been a steady downpour all day. The ground is saturated with moisture, and the growing crops are doing wonderfully well.

Bassano on Sunday afternoon.
Mrs. Wyatt, with Mrs. Small and children, spent Monday afternoon with Mrs. Maguire on the C. P. R. engine.

Mrs. J. Pryor entertained friends on Sunday last.

Sunday services will be held regularly at 11 a.m. in the Gem school. A minister from Bassano will conduct the service. Everybody welcome.

R. Hendricks motored to Hussar on Sunday last to visit his mother, Mrs. J. Stepe, who is spending the summer with her daughter, Mrs. Roy Robinson.

The Jubilee committee especially invite the people of Gem to take part in the celebration in Bassano on Friday, July 1st.

Duchess News

DUCHESNE, June 9—Miss Mabel Miller, who has been very ill with pneumonia, is reported getting slowly better.

Mrs. R. C. Holmes is leaving for Calgary this morning to spend a few days visiting her husband who is employed there.

Mr. and Mrs. D. Allen have moved into Hans Jorgen's house.

Mrs. Jewitick, of St. Lawrence, is visiting at the home of her daughter Mrs. E. R. Simpson and family.

Mrs. Anson and family, of Millen, were visiting at Elmer Simpson's on Monday.

Mr. and Mrs. G. Gillings, of Rosemary, called on Mrs. Kuck and family on Monday.

Mr. and Mrs. W. Bacon were calling on friends at Rosemary Sunday.

Mrs. McKinnon was in Brooks on Monday afternoon.

The Duchess W. met in regular session Wednesday afternoon. Mrs. Tatler, of Patricia, convenor of this committee, was the principal speaker at the meeting. Twelve of the Brooks ladies were welcome visitors.

They were very sorry of the storm clouds causing the hurried departure of the visitors before tea was served. The hostesses were Mrs. Kuck, Mrs. Beck, and Mrs. Simpson.

L. B. Kack, of Calgary, visited his family here on Monday.

There will be another meeting of the Chautauque association at Liberty Hall Saturday, June 11th.

The Jubilee committee especially invite the people of Duchesne to take part in the celebration in Bassano on Friday, July 1st.

BEARCATS COP THE FIRST GAME

Open Baseball Season With Victory Over Brooks Team—Brooks Defests the Locals in Return Game

The Bassano Bearcats won the first game of the 1927 baseball season when they played in Brooks last Saturday afternoon. The boys were going strong and played good ball through the game. Up till the first inning it was anybody's game, but after that the Brooks team weakened, and the Bearcats ran up a bunch of runs to finish the game with a 12 to 5 score.

Jackey Blumer pitched a nice game for the Bearcats. The Brooks team was handicapped by not being able to play their regular newspaper twirler, Hanky Mantle.

Bearcats' Lou Second Game Brooks outplayed them when they played in Bassano Sunday afternoon, taking the Bearcats over the road for the score of 16 to 8. The game was a close one, and had a hard judgment. The Bearcats last could not get going, and a bunch of errors were chalked up against them that cost them their regular support.

Art Marquardt was on the mound for Bassano. Art had lots of stuff on the ball and would have won the game with good support.

Hot Johnston was umpire.

TEA "is good tea" 105-R
RED ROSE ORANGE PEKOE is extra good.

The action of the British and Canadian Governments in breaking off diplomatic and trade relations with the Russian Soviet Government is the equivalent of a long series of non-diplomatic actions on the part of the United States Government. It is the continuation of a policy of economic and political isolation in all parts of the world. Professing friendship and enjoying rights and privileges wherever the United States flag flies, Soviet embassies are everywhere. The United States Government is not only friendly to Russian interests, all with the avowed object of ultimately overthrowing the British form of government and breaking up the British Empire. It is also friendly to the interests of the United States. It has been a trouble loosed up, there the Soviet agents were busy carrying on their baseless propaganda, and always especially active if British interests were in any way engaged. The British Government continued to exercise its rights and privileges wherever the United States flag flies. Russia required the policy of co-existence followed by Great Britain as a sign of weakness. They treated it with contempt while taking full advantage of it.

"Calling itself 'Workers' Government,' the Communists in Russia have sought to get control of organized labor throughout the world. In this they failed in Great Britain, in the United States, in Canada, where the hard common sense of the working men and the sanity and patriotism of their leaders have foiled these insidious attempts. 'Rods' everywhere seek to create the impression that opposition to Bolshevism is opposition to organized labor, but nothing was further from the truth. Labor has everything to fear and lose from the spreading of the Russian doctrine and nothing to

from the corner. Sweet young lady— Then I win.

In Altitude Contest
Quickest Time Made in Ascent and Descent Will Decide Winner
 Single-engine fighters with pilots unencumbered to maintain power in thin air at great heights are to take part in an altitude race at the Royal Air Force display at the Hendon Aerodrome, N.W., on July 2.
 Another bi-control model will accompany the jet fighters, and will rise up to more than 50,000 feet or approximately five miles. Their pilots will wear electrically warmed suits and be provided with oxygen breathing appliances.

A Nova Scotia Lady Was in an Anæmic Condition

Men and women who do not sleep well and are not refreshed and strengthened by a night's rest, are generally suffering from thin watery blood. The nerves fail to get the nourishment they demand and headaches and irritability are the result. Building up the blood is the one sure step to renewed health and strength, and for this purpose nothing else can equal Dr. Williams' Pink Pills. From first to last they enrich and purify the blood, and in this way promote better appetites, better rest at night, and renewed

times that I would feel lousy and unrefreshed if I did not rest. I was in a very poor state of health and reached the stage where I had to remain in bed. A doctor was called in and he told me I had no organic trouble, but was simply run down from overwork. I had been left with a family to support, which I did by dressmaking. The doctor said my blood had almost turned to water, and advised a rest cure. I did not see how it was possible for me to take a very long rest, so I decided to try Dr. Williams' Pink Pills. Soon I found my strength was coming and before very long I was able to go about my duties as usual again. This was

who said my blood had become so thin that it had really poisoned itself. I told him I had bought several boxes of Dr. Williams' Pink Pills, and he told me to go on taking them as he thought they were just what I needed. I took eight boxes and again was in good health. I can therefore recommend these pills to all in a weak or run-down condition."

Dr. Williams' Pink Pills are sold by all druggists, or will be sent by mail, post paid, on receipt of price, 50 cents a box. Try them today.

Liable for Damage Done by Dogs
Saskatchewan's new act for the protection of sheep from dogs went into effect May 1st. Under its provisions, any municipality in the province is liable for damages done to sheep by dogs, and all municipalities must appoint competent valuers to assess damages where sheep are destroyed or damaged by dogs. To provide funds to meet these losses, any municipality may impose a dog tax of \$1.00 for first and \$2.00 for the second male dog kept, and up to \$5.00 for each female.

desperate and hopeless. To such a case the relief afforded by Dr. J. C. Kelllogg's Asthma Remedy seems nothing less than miraculous. Its help is quickly apparent and soon the dreadful attack is mastered. The asthmatic who has found out the dependability of this sterling remedy will never be without it. It is sold everywhere.

Ahead of Men's Wear
Women use more shoes than men in Canada. Nearly 300,000 more pairs of leather and cloth shoes were manufactured for women in March than were produced in the previous month. The same is true for men's shoes. The production for men was only 37,152 pairs in February, according to a report issued by the Dominion Bureau of Statistics, whereas 65,555 pairs were manufactured for women in March and a total of 522,734 pairs for men. The total figure for the leather and shoe production record an increase in output of 276,000 pairs in March as against February.

That Mortgage

Is a mortgage one of the things you are leaving your wife?
Not a very welcome legacy, is it? And so unnecessary?
You're probably paying 6 or 7 per cent on that mortgage now. No matter how life insurance averaging about 1 per cent additional you can provide that in case of your death the mortgage can be paid.
Such a policy does more than guarantee your dependents' easy circumstances. It assures you an easy mind.

Subscription \$2.00 a year, \$2.50 to the United States

There is a power of truth in the statement of a thoughtful humanist who said "the key of success does not lie at the night light."

The movement for the revival of old songs may be stimulated by the news from Kingston, Jamaica, that a tropical storm has destroyed 15,000 banana trees in full fruit.—New York Evening Sun

The most expensive place to live is just beyond your income.

A British scientist has discovered a prehistoric dirt aw imbedded in a piece of wood. Probably the owner left it there when the five o'clock whistle blew.

PROSPECTS ARE ROSY

1927 bears the earmarks of a banner year for agriculture in Alberta. From all sections of the province come reports that crops are looking good, plenty of moisture in the ground; crop indications never looked better; wheat making wonderful growth; and other similar reports. This news is cheering. It is the best news in the world for the people of Alberta.

Agriculture is the basic industry of Alberta. When the farmer prospers, everybody prospers. A big harvest means more money in circulation, more business for the merchant man, and steadier employment and better wages for the working man. It's a long way from now until harvest, and many things may happen between now and a threshing time. But at any rate, the crop is away to a good start, and everybody ought to be cheerful.

GOOD PROGRESS IN OIL DEVELOPMENT

Alberta's oil industry is looking up. And at the same time the drill is going down. An oil well has been brought in at Skiff, and more production obtained at Turner Valley. The next field to attract attention will be Strevell.

The only thing that is keeping the Strevell oil field out of the lime light is because it is somewhat obscurely located. Away back in the bad lands along the banks of the Red Deer river, scores of miles from a main highway, and in a district where settlers are few and far between, the Strevell oil structure has been overlooked by many petroleum engineers whose attentions have been centered to the spectacular performance of wells in the Turner Valley.

But far sighted directors of companies with holdings in various parts of Alberta have not overlooked the Strevell field, and got in early on the fling of leases.

At Strevell there is a perfect oil structure. Geologists have surveyed the field, and their findings are sufficient to cause more than a warm enthusiasm in the heart of the true oil man.

According to reports drilling activities will be started at Strevell this summer, and the progress of the work will be watched with keen interest.

THE FIVE YEAR CONTRACT

The Alberta Wheat Pool will soon be asking its members to sign another contract to deliver their wheat to the pool for another five year period.

To some the move may seem a little premature. But the operation of the wheat pool is a tremendous undertaking, and the pool must have where it stands with its members before it can go ahead with its plans.

The work of operating the pool since it was organized has not been an easy one. There have been unforeseen difficulties of a more or less serious nature, and troubles of various kinds which had to be overcome.

In addition to these difficulties the pool has had to fight the opposition of the grain trade which seeks to destroy this tremendous co-operative marketing organization.

But the pool has survived and prospered through it all, and extended its operations every year to wider and more extensive fields.

The pool is the farmers' own grain marketing organization, and deserves the support of every farmer in the province.

'LION AND LIONESS

By Edwin Markham
One night we were together, you and I,
And had unknown Assyria for a lair,
Before the walls of Babylon rose in air.

Low, languid hills were heaped along the sky
And white houses marked the walls of alkali
When suddenly down the lion path a sound...

The wild war-whoop... then a crouch, a bound,
And the frail thing fell, quivering with a cry!

Your yellow eye burned beautiful with light;
The dead man lay there, quivered and white;

I roared my triumph over the desert wide,
Then stretched out, glad of the sands and called:

And through the long star-tinted Assyrian night,
I felt your holy breathing by my side.

APPRECIATION OF THE TRAVELLING CLINICS

Letters continue to come into the department, announcing Hon. Geo. Headley, minister of health, expressing appreciation of the splendid work being done by the travelling clinics under the charge of Dr. T. J. Washburn, which is bringing medical service to many outlying communities. Mrs. R. Clarke Fraser reports that at Naino, near Coronation, operations were performed on over thirty children and many in addition were given dental attention and prescriptions for glasses. Results indicate, states Mrs. Fraser, that this service is one of the greatest the government has ever undertaken. At the four points visited to date since May 15, a total of 80 operations have been performed, 264 consultations have been held, and 120 dental treatments have been given. Requests are being received from many other districts for the services which the clinic is rendering.

BRITISH CAPITAL IN ALBERTA OIL

Calgary—Campbell M. Hunter, O. B. B., distinguished British petroleum engineer, investigating the Alberta oil situation, has half of London financial interests, has left Calgary on his way back to England. It is rumored that he came specifically to examine 14,000 acres of oil leases in the Ribstone field held in the name of the Ribstone-London Petroleum, Ltd. It is learned further that timber is on the way to the field for the beginning of the first well.

Sub-district Wheat Pool Meetings

will be held at the places and on the dates given below

The purpose of these meetings is to organize the campaign for the signing of the Second Series of Wheat Pool Contracts.

All who are interested whether farmers or townspople are urged to be present.

Members are requested to attend the Meetings in their own Sub-district if possible.

Bassano June 18th at 1.30 p. m.

PIG PASTURE

Over a period of nine years various pastures for pigs have been tried out at the Dominion Experimental Station at Northern, Sask., both in comparison with one another and with no pasture. In dry years, such as 1934, there was so little growth that no effects could be seen from the use of pastures, but in seasons where there is a fair growth there were both greater gains and more economical gains when pigs were on pasture with meal than when on meal alone. Corn pasture is less valuable than oats or barley, and rape gives best results in amount of gains and economy of gains. Rape has another advantage. Pigs fed in dry lot or on grain pasture or corn pasture showed greater gains when fed a supplementary mineral mixture but there was little difference between those fed mineral and those without mineral on rape pasture.

MINISTERS TO VISIT CALGARY OFFICE

The direct service of the government to the people of the southern part of the province through the newly opened provincial government office in Calgary, will be made available by the presence in this office of one of the members of the cabinet each Thursday throughout the season. While it is impossible to state far in advance which minister will be in attendance at Calgary on Thursday, this announcement will be made through the Calgary papers early in each week.

Delegations or individuals wishing to meet a member of the government at the Calgary office may make arrangements by communicating with Edmonton direct or telephoning or calling at the "Office of the Executive Council" to the left on entering the main door of the Land Titles Building, Calgary, phone M 2244.

Native Ornamentals Trees and Shrubs

Too little thought is given to the numerous varieties of shrubs growing on the neighboring coast but in the back garden, which are known for their hardiness and can be procured for little cost. Such shrubs will grow without any doubt as to whether they will stand the winter or whether they will be dried out in transit.

For the purpose of classifying the trees, shrubs, and climbers.

In looking over the list of trees, there are native pines, pin cherry, saskatoon, and chokeberry, which in the spring give a profusion of blossoms, followed later in the season by fruits, which are at once ornamental and which may be used when ripe to replenish the larder with jam and jellies. There are also the hawthorn and the manzanilla, which have characteristic bloom, the fruit of which is inedible, but decorative.

The shrubs afford much pleasure and joy to the eye. Pambina offers the unfortunate name of high bush cranberry, which is very fragrant, and the scarlet berries are decorative and useful for pies, preserves, and jellies. Sand cherries bloom profusely, while the fruit is of poor quality, but makes good vinegar. Cinquefoil and roses are very ornamental and bloom abundantly. Silver berry and sumach are more appropriate for their foliage. Silver berry makes a striking appearance on the lawn with its shiny, silvery leaves, and fills the air with fragrance when in bloom. The foliage of sumach assumes brilliant shades of red and scarlet, which make it very attractive. Red cedar, dwarfed, very attractive, very ornamental, since it has clusters of white blossoms, followed by white berries, but makes its most pleasing effect in winter, when its bright red branches contrast with the white snow.

The climbers vary the effect and may be used to cover the arbor or back porch. The honeysuckle is the only one to produce showy flowers. The broad flat leaves of native grape and the clusters of fruit make the grape desirable as a climber. Climbing bittersweet is seen to advantage in the fall when its orange colored berries are the most visible after the leaves have dropped. Hops are useful for climbing over the trellis or walls.

The above list outlines a few of the native ornamentals which thrive at the Morton Experimental Station under cultivation. They can easily be propagated from seed, suckers, or cuttings, which makes it possible for anyone to become a successful and interested horticulturist.

CANADA IS GREATEST WHEAT EXPORTER

Montreal—According to figures of the Dominion government, Canada led all countries of the world by a wide margin as an exporter of wheat from August 1 to December 31, 1934. In that period Canada shipped 187,795,000 bushels, by almost 100,000 bushels more than the United States with 94,191,000 bushels shipped. The situation of the previous year with regard to flour was, however, reversed, and Canada took second place to the United States, the Dominion exporting 4,181,000 barrels, as against the republic's 6,940,000 barrels.

Local News

Robt. McLean was in Calgary on business this week.

A. Griffin, of Brooks, superintendent of the Eastern section of the C.P.R. irrigation block, was a visitor in Bassano Tuesday and Wednesday.

Miss Irene Johnston has joined the staff of the local telephone office.

R. C. services will be held in Bassano next Sunday morning at nine o'clock.

R. J. Bell was down from Huskar for the week-end, and also came down again on Tuesday.

Robt. H. Brumhous is a visitor to Calgary this week. Attending the Masonic convention.

Bert. Robt. Wright went to Calgary on Monday.

W. J. Redmond went to Calgary Tuesday night to attend a gathering of the A.F. & A.M. G.R.A.

P. Gales, school teacher at Huskar, was in Bassano last Saturday, and journeyed to Gleichen with the golf team Sunday afternoon.

Wm. McLaws made a business trip to Hanna this week.

Hal Winkler, who was goal tender for the Calgary Tigers a couple of years ago, was in Bassano this week.

Percy Chudleigh, an old time resident of the district, now of High River, was around renewing old acquaintances.

Mrs. Lloyd Young and children came in from Rosemary with Mr. and Mrs. Copeland on business Friday.

Mrs. Jaa. Johnston, Helen and Archie, spent the week-end in Calgary.

Mrs. M. MacDonald, Mrs. W. S. Playfair, Winifred and Christie, returned on Sunday from Calgary where they visited for a couple of days.

Gordon Foster, M.L.A. of Hand Hills, and Mrs. Foster were visitors to town from Nately Wednesday, bringing Mrs. Geo. Couits to the hospital for an operation.

Ben S. Plumer went to Calgary last Sunday to attend the gathering of wheat pool delegates this week.

Russell and Albert Long, of Majorville, returned in to Bassano last Thursday.

Douglas Hardwick and Chas. Miller, of Gleichen, visited last Thursday with W. S. Playfair.

Geo. Couits, of Hutton, came in on Sunday to see Mrs. Couits, who is a patient in the hospital.

M. A. Atkins, the Gem storekeeper and postmaster, returned on Sunday from the coast where he has been enjoying the sea breeze.

Mr. and Mrs. Maguire, of Gem, were in Bassano last Sunday.

Mr. and Mrs. Frank Pragnell and children, and Mr. and Mrs. J. Rathbone and Richard motored out to Hutton on Sunday to visit at the Bradshaw farm.

Mr. and Mrs. Adam Meldinger, of Olds, came down on Saturday for a couple of days stay with their sons, Herbert and Joe.

Mr. and Mrs. A. P. MacCallum, of Gleichen, came down for the dance last Friday evening.

Eddie Sillen, the Huskar druggist, was in town over Sunday.

Owing to the illness of the rector, Rev. Mr. Leacroft, there was no service in the Anglican Church last Sunday.

Jack Barber spent Sunday with his family in Calgary.

A. G. Bond was a visitor to Calgary over the week-end.

Miss Myrtle Bailie spent Sunday in Brooks.

Dr. W. G. Anderson, of Wardlaw, was in Bassano last Friday. W. G. says the crops around Wardlaw and Stoverline are looking good this spring.

Dr. W. P. Keith is now driving a Chrysler coach.

Here and There

An honor was conferred upon Captain James Turnbull, C.I.B.C., R.N.R., commander of the Canadian Pacific steamship Montserrat, recently, when he was appointed Aide-de-Camp to His Majesty King George V.

All polling records were shattered recently when K. Tanaka, local Japanese golfer, playing on the Canadian Pacific course "Langara," scored a hole in one twice in one round of the eighteen-hole links. The first was obtained at the fifth hole which is 115 yards, and the second of the sixteenth hole, which is 210 yards.

During the month of January of the present year automobile production in Canada has increased 36 per cent. over and above the production for the corresponding month of last year, being 15,276 cars, as compared with 11,200 for the previous year. Almost half of the cars produced were for export, according to the Dominion Bureau of Statistics.

In memory of the late Col. George H. Mann, of Montreal, death of railway publicity man in North America. A beautiful memorial porch is being erected over the door of St. John's Church at Whistler by the members of the Women's Canadian Press Club. The late Col. Mann died in Montreal on April 16 last.

WORLD HAPPENINGS
BRIEFLY TOLD

For the first time seven judges took their seats on the bench of the Supreme Court of Canada. The Supreme Court was enlarged last session to its present complement.

Congratulations upon the recent signing of the Commonwealth parliament at Canberra have been transmitted by President Coolidge in a message to the governor-general of Australia.

Liquor entered by the coastguard from two yachts outside the 12-mile limit, can be introduced as evidence in the trial of the rum-runners, the U.S. Supreme Court decided.

Notionists and conductors of the Winnipeg Electric Railway have settled the question of wages by accepting the company's offer of one cent an hour increase each year with a three-year contract.

In the present tentative plans the Prince of Wales and Premier Bowden will sail from England July 23, arriving in Quebec July 25. The Prince and the Premier will spend August 2, 3 and 4 in Ottawa as guests of their Excellencies, the Governor-General and Lady Willington and of the Government of Canada.

One of the finest collections of Indian material in Canada consisting of beads, horn, stone and slate objects which was recently purchased by McGill University has just arrived at the David Ross McCord National Museum. This collection was dug from the ground many years ago in the district surrounding Brantford, Ont.

"First class" is the word that King George Hooley, minister of agriculture, applies to Alberta crop prospects. He says that in 35 years' experience in the prairie he has never known the land in general to be so good condition, and the reports that are coming in give every reason to expect a big season.

Sir Frederick Stupp, director of the Dominion meteorological bureau in commenting on the predictions of Herbert Brown, of Washington, D.C., to the effect that 1927 will be a numerous year, said he does not regard such a prediction as an accident and that even if the year should prove to be summerless it would be impossible to foretell the fact this far in advance.

Saskatchewan Egg Pool

Farmers' Wives Constitute the Board of Directors

The women of Saskatchewan are winning their spurs in the egg and poultry field. At the first annual meeting of the Saskatchewan Egg and Poultry Pool, the directors of which, all but one, are wives of farmers, the revenue of the year's business showed a turnover of \$527,137. The pool began business at the end of March, 1925. The first year it handled 1,159,317 dozen eggs and \$100,000 lbs. of poultry. At the close of the year the pool had paid up \$100,000 in capital amounting to \$12,374 and a reserve of \$7,500. The membership is approximately 15,000.

Supporting Mother Country

Bay of Canada's Attitude is Impregnable

Discussing Britain's break with the Soviet in his paper, the Observer, J. H. Garvin says: "Canada has set a magnificent example in supporting immediately the action taken by the Mother Country, Canada, locally, had no grievance comparable to ours, but on the one hand Mr. McKenna King saw the common imperial interest now at stake and on the other he brings Canada as well as Britain into line with the unshaken opinion of America. The decision of Ottawa is by far the most satisfactory aspect of the whole imbroglio."

Soldier Settler Lands

Movement Started for Revaluation of Holdings in Saskatchewan
Machinery for the revaluation of soldier settler lands throughout the west, long awaited, was set in motion for Saskatchewan when the tract was made in the Regina office of the board to send 2,500 letters to soldier settlers. With the letters were forms of application for revaluation and these must be filled in by the settlers and returned to the board by October 1st.

And now they're telling the story of the law that committed outside buyers to wait for the chance of buying a score card at the game and neither side scored.

"Time and patience will enable a person to conquer almost any obstacle."

W. M. L. 1694

Warning the Child's Life

A Mother to Mothers to Watch Childhood Dreams

An exhortation to mothers to study and mold the all important dream life of their children, which when uncontrolled may lead to disaster, is contained in an article by Florence Hill Whiteburn in the June issue of "Psychology Magazine."

Mrs. Whiteburn in emphasizing the importance of the child's dream life, writes: "It is from childhood dreams that the stuff of good or evil lives is obtained. The little child knows so much more than he believes; he believes so much more than he imagines. Imagination is the king of his life, the peep of his faith. What he 'wants'—his 'dreams' about what he has in dreams, his aspires toward in his daily life. Dreams influence reality and reality gives out the material from which dreams are built."

"If it is hard," points out Mrs. Whiteburn, "for even the most honest and truthful parent to accurately distinguish between the ideas obtained out of practical living and those brought about by the child's dream, how much more impossible is it for a child, who is most of his time, waking and sleeping, under the influence of his 'dreams' to be sure of what is true and what is false? Before we bring any child to account for these little tales or fancy he seriously related to his father, should investigate the sources of his beliefs."

Mrs. Whiteburn stresses the fact that among children dreams are often tyrants. "The miseries of a child who is forced to pretend in dreams," she writes, "in an exaggerated degree, the disagreeable experiences of a hard day, are things seldom taken account of by the grown people who have almost forgotten their childhood. The old-time practice among our Puritan ancestors of having a child rebuke his bad deeds before going to sleep, and often getting no punishment for them at the bedtime hour, was a deplorable misuse of authority. We must on the contrary guard our child from trouble at night."

"In almost every family there is a tendency toward some special type of dream," observes an article in "Psychology," "originating in a suppressed desire of some sort. It is not only our privilege but our duty to study our child and not out of prejudice to the stuff he is made of through investigation of his dream life. Dream life is more than half the existence of children, and the more parent may exercise deep and permanent influence over their brains by suggestions toward right."

Shipping Salmon Eggs

The Largest Consignment Ever Made in Canada

The largest single consignment of salmon eggs ever shipped in Canada was that made by officers of the Fish Culture Service of the Department of Marine and Fisheries to the upper waters of the Fraser River in British Columbia. Fifteen million sockeye eggs in the "red" stage, were transferred in specially constructed crates from the Dominion government's fish hatchery at Pemberton on the Fraser River below Hell's Gate Canyon to the following spawning grounds in the upper Fraser: Stuart Lake, Francois Lake and the Quenel Lakes.

Social Worker—And what is your name, my good man?

The Convict—999.

Social Worker—O, but that's not your real name.

Convict—Now, that's only my pen name.

New Use For Helium

May Be Substituted for Nitrogen in Air of Diving Belts

When helium was first discovered it was considered a sort of scientific toy, and was obtainable only in extremely small quantities. Then it was produced in quantity sufficient to take the place of hydrogen in the air of diving belts, for the nitrogen under high pressure causes the "bends" of the bodies of the divers, and when it escapes during the ascent causes severe lacerations. The discovery has an economic value for with helium it will be possible for divers to descend to the bottom of the deep of Vico and secure millions of gold from sunken Spanish galleons.

Winnipeg Newspaper Union

Fortunate indeed is the person, entering the dining room of a large hotel and finding a seat at a table headed water. Umberto Traglia, who will be the superintendent of service at the new C.P.R. Hotel Saskatchewan, at Regina, has served in the dining rooms of some of the largest hotels on the continent, including the Empress at Victoria, Hotel Vancouver, Place Vieux, Montreal, Kalkreuth, Sherry and Hector, New York, and the Gunwald Hotel, New Orleans.

Observing Diamond Jubilee
Large Attendance Expected at Service in Westminster Abbey
Preparations are now well advanced for the great service in Westminster Abbey, July 1, which will form the chief commemoration in London of Canada's Diamond Jubilee. The Dean of Westminster, Very Rev. the Pastor Norris, has drawn up an order of service, which follows as nearly as possible that which was used when the Jubilee of Confederation was commemorated in the Abbey in 1917.

Small Frocks for the Junior Miss
This little "frock" is smart in every detail and would be equally attractive if fashioned of silk, fine woolen material, or short sleeves. The skirt has plaits in the front and is joined to a bodice having a single scallop, and there is a belt across the shoulders. Contrasting material is effectively used for the shaped collar, front plaid, and cuffs finishing the long tight-fitting or short sleeves. No. 1531 is in sizes 8, 10, 12 and 14 years. Size 10 years, requires 2 1/2 yards 36-inch material, or 1 1/2 yards 44-inch and 36-inch contrasting. Price 25 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 30 cents the copy.

Has Had Wide Experience

Removing Old Roman Pavement

Found Century Ago Will Be Sent to British Museum

Discovered over a century ago at Saratoga, N.Y., the Roman pavement, which was regarded as the finest in its class, is the largest example of its kind in the world, and is now being removed to the British Museum. Agreement has been reached recently between Mr. H. H. C. Carls, the owner of the hall, and the American officials, and has yet to be approved by the trustees.

"It will be a very elaborate process," said the authorities, "and is much too costly to be undertaken by any of the local bodies. Expert workmen will go to Barton-on-UMber to do the removal, which will have to be performed with extreme care."

Since the pavement has served at the museum it will require several years to reconstruct entirely, although certain portions will doubtless be completed at earlier intervals."

The pavement, which measures 45 feet by 24 feet, was unearthed by laborers making a kitchen garden in 1794 at a depth of three feet.

For more than 20 years, with a view to its preservation, it has undergone a covering of a foot of soil. Its age is computed to be over 1,500 years, and it is supposed to have been the site of a great arena's tent or of the pavilion of a high Roman military officer.

Consulting of thousands of small pieces half an inch square, the pavement is colored according to work.

Will Always Bring Results

Success Assured if Anything Worth While is Advertised

Some time ago the people of Colorado Springs got the idea that there were great attractions in that place for tourists. Following up this bright idea they made plans for several reasons to attract visitors, but without much success. So they decided to appropriate \$14,000 advertising, this helped them in the next year they increased the same to \$60,000. They advertised chiefly in newspapers, all over the country. Over a million copies of Colorado Springs last year, carrying some 350,000 people. More than 90,000 more people came by train. These visitors spent about \$1,000,000 in the Colorado Springs neighborhood. Not a bad return for a \$90,000 investment! What there is no publicity the enterprise perishes. If there is something really worth while advertising of the right sort will make a great success of it.

Not to Be Trused

Breat Britain has tried in many ways to honor the action that Moscow's diplomatic intentions are honest and that its word can be depended upon. She has always found her word is not to be depended upon. The Soviet are incurable. They do not let the right hand know what the left hand is doing. They make promises to one's face and break them behind his back.

Flin Flin Mine

The \$750,000 concentration plant at the Flin Flin mine in Northern Manitoba has begun operations and 25,000,000 tons of ore have already been blocked out, according to the Winnipeg Board of Trade, which is actively supporting the construction of a railway into this area.

No man can tell what his wife is going to do by what he tells her to do.

Was Once Object of Dread

People in Olden Times Were Superstitious Over Eclipse of Sun

The fact that England is to experience, on June 20th, the first total eclipse of the sun since 1794, recalls many accounts of ancient and medieval writings of the superstitious dread which welled up from the people's hearts as a result of the darkness.

In a thousand years there have been only 13 total eclipses of the sun in England. They occurred in 823, 858, 1023, 1133, 1246, 1258, 1339, 1412, 1432, 1597, 1715, 1724 and 1724. It is a very rare phenomenon of the sun's rays were connected with the eclipses has plenty of time to grow up.

Astronomers of today are worried by the difficulties in the way of accurate prediction of the central line and the time of the eclipse. Four thousand years ago "it would have worried them even more. Two Chinese astronomers Ho and Jih, who failed to give notice of the eclipse of October 23, 1133 B.C., and added to their offence by being drunk at the time, lost their heads. Since their time the sun has never been so much feared by astronomers to be drunk during an eclipse.

In the Solomon Islands eclipses of the sun are credited to the machinations of sorcery. While in some parts of New Guinea they are regarded as portents of a good season of crops.

An eclipse in the Philippine Islands last year caused a great excitement among the population, who were huddled on their armour and sound of hundreds of songs in the belief that sorcerers were using their magic to bring in rain for the month.

Anglo-American Relations

Friendship That is Real Cannot Be Broken

In the world as yet after seven years of the League of Nations, there is nowhere to be seen so much love and friendship as between the two great powers. But between America and Britain there is in fact an element such as does not enter into the relation of any other two nations. Between many millions on this side, and many millions on the other, friendship is not only real, but it is intimate and unbreakable. They wish to be friends, and they will be friends.

Official Live Stock Annual

Study of the past is especially valuable as a key to the future. There is like the maximum interest, as well as in the record, of such a publication as the seventh annual live stock market and meat trade review, covering the year 1926, issued by the Live Stock Branch of the Dominion Department of Agriculture. It is indeed a vast mine of statistical information relating to the dealings in live stock of the entire country. Quantities and prices of all classes are given month by month and for the last five years year by year. The story of both our domestic and export trade is told and reviewed in the full detail.

Big Oil Refinery

Work will begin at once on the construction of the first unit at Wainwright, Alberta, of a ten-thousand-barrel-a-day oil refinery, according to R. A. Price, president of the Price Development and Mining Co. Shipments of lubricating and tractor oil will begin before September.

It may be all right for a girl to hustle around for husband, but after she gets him—she should do the hustling.

New Variety Of Poultry

Said to Be Much More Profitable Than

"Turkey" which has been a new variety of poultry which is said to be much more profitable than the turkey. It is said to be a cross between the turkey and the chicken, but it is not a turkey, as many have mistakenly supposed from the name (an impossible cross), but as a matter of fact it is a cross between the turkey and the chicken. It is said to be a cross between the turkey and the chicken, but it is not a turkey, as many have mistakenly supposed from the name (an impossible cross), but as a matter of fact it is a cross between the turkey and the chicken.

The male turkey has a comb and grows like a cock, but talks like a hen and is a very different bird. It is said to be a cross between the turkey and the chicken, but it is not a turkey, as many have mistakenly supposed from the name (an impossible cross), but as a matter of fact it is a cross between the turkey and the chicken.

This will probably be new, even to most poultrymen, but it is also a matter of interest to the general public, and one which our Minister of Agriculture might well direct the attention of all poultrymen. It is said to be a cross between the turkey and the chicken, but it is not a turkey, as many have mistakenly supposed from the name (an impossible cross), but as a matter of fact it is a cross between the turkey and the chicken.

Newspaper Advertising Best

Reaches More People and Makes Best Impression

Newspaper advertising is, of all the advertising mediums, the advertising that reaches most people most of the time, and makes the best impression. On every land on this continent there are great enterprises and manufacturers that would not be known today were for their selling plans in newspapers and periodicals. If the article or the product has quality, the newspaper's advertisement will sell it to a steadily increasing number of people. That kind of an advertisement certainly wins winners.

U.S. Immigration to Canada

Analysis of United States Immigration to Canada for the last fiscal year discloses that Michigan was the least contributor among the States of the Union with 536 immigrants. New York and Washington led for second place with a total of 1,837 each. Following came Minnesota with 1,613, North Dakota 1,379, California, 1,367 and Massachusetts, 965.

British Capital, O.R.E.

Campbell Hunter, O.R.E., will know geology and his expert, accompanied by C. I. Fisher, representing British capital, is investigating the Wainwright and Rhinestone oil fields. The Turner Valley will also be visited.

FROM SEA UNTO SEA

867 1927

CANADA'S THREE SCORE YEARS OF NATIONHOOD

The production of foodstuffs must always remain Canada's basic industry. This is caused by her vast immensity, the fertility of her soil, and her bounty of Nature which decreases the variations of frost and snow, sunshine and rain necessary for the growth of fruit, grain and vegetables under the world's eye. In the item of wheat alone the year of Confederation saw a crop of 10,232,872 bushels for the entire territory now known as the Dominion of Canada, last year the total production of wheat was 408,240,000 bushels.

In the last 60 years the development of machinery has made farm work much less laborious. In 1867 the cutting of grain by machinery was comparatively new, and the machines then in use were crude and unwieldy. In that year a Canadian company produced the legendary reaper, shown in Mr. Jetter's sketch, which was far superior to any manufactured before. Together

many a farm of that day the entire grain crop was cut by the old-fashioned cradle. An expert cradler, followed by a man with a wooden rake, who broke the windrows into sheaves and bound them with a whip of straw, could harvest from three to four acres a day. Nowadays a power-driven reaper-thresher cuts out a 15-foot swath and carries a crew of five men, reaps and threshes forty acres a day. The artist shows the old and new methods together with another labor-saving device—a modern tractor.

WHO LOWERED THE COST OF LIVING FOR THIS DISTRICT

Local News

Dr. A. O. Scott and W. E. Hambrook visited the Stevierville oil field last Sunday.

A girl was born to Mr. and Mrs. Jerry Carey, of Den, in the Bassano Hospital, on Tuesday, June 1th.

Mr. Geo. Curtis, of Canford, is recovering in the Bassano Hospital after a recent operation.

The Hinks Limited dance put on in the curling rink building last Friday was well attended. Everybody enjoyed a good time.

W. A. Dayfair is the owner of a new Chrysler "50" road sedan. Don Galarraga, of Galarraguita, is now driving a Chrysler "50" landau sedan. Both cars were purchased from Currie & Milroy, Ltd., Chrysler dealers.

Two musical evenings will be held under the auspices of the Presbyterian Ladies Aid in Knox Church, Tue. and Wed. June 14th and 15th. The first evening will consist of a variety program. Helge Anderson, violinist, and Jack Potter, tenor, will assist the local contributors. The second evening will consist of a pupils' recital.

31st Battalion Band Will Be Here July 1

The Bassano sports, carnival and amusement lighter has been fortunate in procuring the services of one of the best bands in southern Alberta for the big celebration on the First of July. The 31st Battalion band of Medicine Hat has been engaged for the day.

The band should prove a great attraction for the parade and at the fair grounds.

Fortnightly Crop Report

Issued by Department of Agriculture, Edmonton, June 2

In spite of rains in some sections of the province during the past two weeks, which have delayed work on the land for several days, rapid progress generally has been made with seeding. Wheat seeding is practically all districts has been completed and early sown grain in many fields is covering the ground. Drills are still busy with oats and barley. Taking the province as a whole it is estimated that fully 75 per cent. of these grains have been sown, and the remainder will be completed within the next ten days.

The wheat acreage seeded in the south part of the province is estimated to be about on a par with that of 1922, while throughout the central and northern sections reports indicate that this acreage will show quite an increase owing to the considerable area of new and cleared and broken last season in preparation for the 1927 crop. This factor, it is expected, will fully compensate for the areas in some low lying fields where the profusion of water made seeding impossible. The acreage which will be seeded to the coarse grains in most districts is reported to be about equal to that in 1926.

In the southern part of the province early sown wheat is from four to six inches high, of good healthy color, and making rapid growth. Heavy rains during the past week in some sections of the south have delayed completion of coarse grain seeding to some extent. Winter wheat and winter rye generally have come through in good condition and are growing rapidly.

Reports from districts in the Peace River area indicate that the wheat acreage seeded this year is fully equal to that of 1926, and that the coarse grain acreage will show a marked increase. Coarse grain seeding will be completed within a few days in this section of the province.

More interest is being shown this year throughout the province in the growing of alfalfa, sweet clover, and other fodder crops. Pastures are reported to be in better than average condition, and livestock generally is doing well, although some losses have occurred in the lamb crop as a result of the wet weather over much of the sheep range area in the south.

Reports reaching the department from the ranching area in the south eastern section of the province indicate that losses of both cattle and horses owing to shortage of feed during the prolonged winter have been heavier than was anticipated. Losses in some instances running as high as 25 to 40 per cent.

For Good Things To Eat and Wear Try The Corner Stores

Lisle Hosiery

Ladies' Silk Lisle Hose for morning wear, colors Beige, Flesh, Zinc, Grey and Brown 60c a pr.

Spun Silk

We have another shipment of Spun Silk, the silk sold for so many uses 15 new shades of No. 1 quality at \$1.00 yd.
